### Address

Metro Manila, Philippines

## Education

### 2022-Present (3<sup>rd</sup> Year)

Bachelor of Science in  
Information Technology  
(BSIT)  
Philippine Christian University  
(PCU)

## Expertise

- HTML5 / CSS3 (Tailwind CSS)
- JavaScript (ES6+)
- Responsive Web Design
- UI/UX Prototyping (Figma)
- Git & Version Control
- Database Fundamentals (SQL)

## Language

English

Tagalog

## Key Projects

### Ongoing

#### Personal Portfolio Website

Self-Initiated Development

Designed and developed a fully responsive, single-page professional portfolio using pure HTML, CSS (Tailwind), and JavaScript. The project demonstrates proficiency in modern layout techniques, mobile-first design, and core front-end implementation.

### 2024 (Academic)

#### PCU Coursework Management System Prototype

Philippine Christian University Project

Contributed to the front-end design and database integration blueprint for a class project, simulating a robust system for managing student grades and academic records. Utilized SQL for data modeling and structured programming concepts.

### 2023

#### Simple To-Do List Application

Personal Development Exercise

Developed a dynamic web application using vanilla JavaScript to manage tasks, featuring local data storage, drag-and-drop functionality, and modular code architecture to reinforce core programming principles.
